**All color tractor and
engine event**

John Deere Horse Drawn Implements

If you had the opportunity to see the John Deere replica dealership building you may have noticed the old Deere implements. Most of these were originally horse drawn Deere implements manufactured in the first half of the 20th century. By today's farming standards the implements are quite primitive, but in their day, they were a major work saver from tilling and planting the fields by hand.

The following is a brief description of the implements and their history leading to the John Deere dealership museum.

JD Sulky Plow Restored by Loren Dahl, Bow, WA

We don't have a date for this plow but a similar plow was called a New Deere light draft plow circa 1910. The plow is on loan by Bob Calhoun, Custer, WA. The plow originally was owned by Joe Wasky from Custer. Bob had tried to get the plow from his friend for many years but he wouldn't sell. After Joe passed on, Bob was able to get the plow from the estate. Bob feels that more people will see the plow in the JD museum than at his place. Loren Dahl started the project in April and finished for the 4th of July parade at Sedro Woolley. Harold Eastbury displayed the plow on the back of his truck during the parade. Some of the parts were fabricated by Loren and everything else was cleaned and painted.

JD Walking Plow

Owned by the late Gary Worline and given to Loren Dahl for restoration several years ago. No date has been established for vintage of this horse plow but Deere produced the plow from 1867 into the 1940's. Gary was reported to have purchased the plow at a local auction. Loren started and finished the plow project in 2008. The plow was cleaned, painted and new handles were installed.

JD Cultivator Future restoration to be done by Loren Dahl and Cliff Wright, Bow, WA

The story goes that it took one man and horse drawn cultivator 37 ½ days to cultivate 100 acres. A JD model A tractor and four row cultivator could do the job in 6 days. No vintage date on this cultivator but it is similar to a New Elk automatic cultivator made in 1910.

Bob Calhoun got this cultivator from an antique dealer friend in Iowa. Bob had bought a loan of antiques in the Midwest and the cultivator was placed on the load to Washington State. Loren Dahl and Cliff Wright will have the cultivator restored by the spring of 2010

JD Corn Planter

Owned by Maurice Beld's sister, Gladys Van Diest. Thanks to Maurice, the two row horse drawn John Deere planter was loaned to the museum. Originally, the planter was owned by Maurice's cousin in Lodge Pole South Dakota. The planter is dated to late 1920's or early 1930's. It is set up with the check wire planting system for easier plant cultivation. Maurice says that the planter is in very good original shape but with no original paint. The cousin was meticulous with all his equipment, storing inside when not being used on the farm. Maurice isn't sure if he will leave the planter in the good, original condition (official exhibitor classification) or paint it. The planter has a short, non original tongue and he hopes to find the original.

JD Model E Manure Spreader Restored by Bob Folk, Orcas Island, WA

This Skagit county implement was bought new at Barnett Implement, used two seasons, cleaned and put away for over 60 years. Bob found the spreader in a barn south of Mount Vernon and did the restoration. Called the "original low down spreader" by Deere, the implement was in good condition but Bob needed to do a complete paint job. With some major disassembly and painting the project took three years. When the restoration was completed Bob had the spreader "tested" out behind a pair of black Persheron draft horses owned by Jim and Chris Sesby of Friday Harbor. Spreader was built between 1932 and 1945. First displayed at the Anacortes Antique Machinery Show in Anacortes in September 2007.

President's Message

Its that time of year again. How quickly the Holiday's come around. This year has been busy with finishing the John Deere building, parades, caravans and shows. I would like to thank the board members that took charge of our outings. I also appreciate seeing all the club members that participated.

Our Christmas potluck is December 12, 2009, always a great get together. It will be at Bay View community Hall again. We start in the kitchen about 8:00am. Coffee and cookies in the morning will be served, a short meeting about 11:00am and dinner at 12:00 noon. We will again provide turkey, ham, mashed potatoes with gravy, dressing and vegetables. Members can bring salads, or desserts and please bring your own table settings. We will have our silent auction and the big raffle, this all helps support the club. See you at the potluck!!

Paul Hieb, President

Annual Meeting and Potluck Bay View Community Hall December 12, 2009

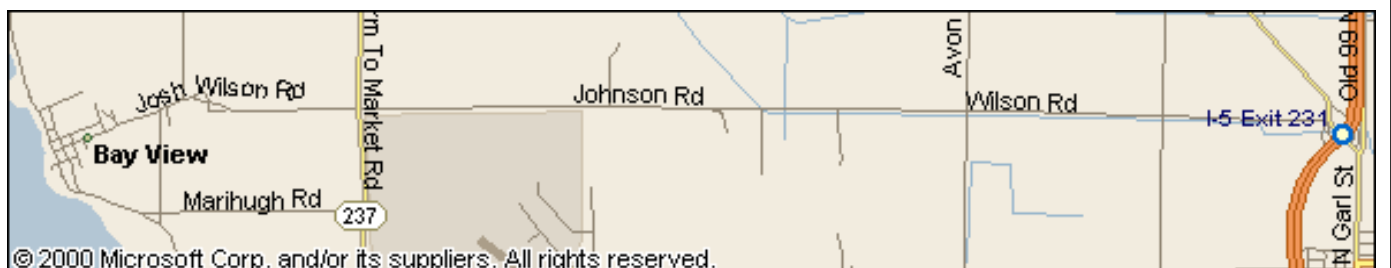

Please R.S.V. P. Paul Hieb 360-856-6210 by
December 9, 2009

8:00 A.M. coffee and cookies
11:00 Meeting and Year in Review Media Presentation
Noon Potluck (Meat, potatoes & vegetables furnished)
Raffle, Silent auction and door prizes to follow potluck

Please bring plates, flatware and potluck (salad or dessert)

Option: If traveling a great distance feel free to substitute raffle item for potluck dish

Membership Dues

\$10/Year

Please note!

If your address label has a black circle around it then Treasurer Tom's records indicate that you have not paid dues. Please send your dues to **Tom Jensen, 202 Rainbow Drive, Burlington, WA 98233** or bring the money to the next meeting.

Separating the Chaff from the Grain

North West Two Cylinder EXPO VIII is happening next August 4th to the 7th 2010 at the Puget Sound Antique Tractor and Machinery Show. The model M and variations of the M (MT, MI & MC) and integral implements will be the featured tractor. **Stationary John Deere engines are also featured.** We are in the initial stages of determining what activities will be included in this NW Expo and need your input. Please give us your comments and we need volunteers!

If you are in need of an official Cascade Two Cylinder Club magnetic tractor sign, Greg Greenfield, CTCC director, is the guy to contact. Most members want the tractor model, year, serial number and owner listed on the sign. A few other brief details could be added such as horse power etc. Greg may be contacted at 360-661-4632. Price is \$25 per standard sign.

Anacortes Antique Machinery Show,

September 12. I failed to mention two members, **Harold Eastbury and Loren Dahl who displayed their tractors at this fall show.** Harold displayed his replica Waterloo Boy, John Deere LA modified and John Deere 50 lawn mower. Loren displayed his John Deere BR. Apologies to Harold Eastbury and Loren Dahl for that oversight.

You may have noticed in the John Deere collector magazines tips about using the NAPA Gold number 3039 fuel filter for your tractor's sediment bowl. Some have recommended cutting the fuel line and placing a inexpensive inline filter which works well but doesn't look very "original". I bought a couple of the NAPA 3039 fuel filters but learned quickly that they don't fit inside the Dubuque tractor(M, 40, 420 & 430) sediment bowls. I do think they will fit in the larger sediment bowls on the Waterloo tractors(A,B,G,60,50,70 etc.). What's been your experience? *ajohnson*

Directory!

When renewing dues please include email address and tractors you want listed in the directory. If you don't wish tractors listed on the web please indicate. You can also update online at www.c2cc.org

Hardcopies of directory will be available at general meeting.

Cascade Two Cylinder Club

Regular meeting held October 24, 2009 at the Sedro Woolley Museum

Meeting called to order at 10:25 am by Paul Hieb, president

Minutes read and approved **Treasurer's report** \$31.21 in building fund. \$1077.80 in general fund.

Old Business: Gary Friend suggested we have maps of future caravan routes so no one gets lost if they should fall behind. Christmas parade Arlington, be ready to roll at 12:00 noon.

New Business: Pot Luck December 12, 2009 at Bayview Community Hall. Peel potatoes at 8:00 am, coffee and cookies etc. meeting about 11:00, dinner served at noon. Raffle and silent auction following dinner. As in the past the club furnishes turkey, ham and trimmings. Members are encouraged to bring a side dish or dessert, or if you would rather, something for the raffle. We need to clean our gutters at Lynden. Bob Peter suggested we put covers on them, for now we will just clean them twice a year. Gathering of the Green March 17-20, 2010. Register as soon as possible. Contact Alerd Johnson PSAT&MA show 2010, John Deere will be featured, we are planning an EXPO in tandem with the regular show, Slow Race, vendors, seminars and possible a John Deere pull. A lot of organizing and planning ahead. Several of our members went to the big Tractor and Steam Show at Rollag, Minnesota this past summer. Morrie Robinson belongs to that organization and took the time to explain how it works. Each member has to work a number of hours on the show grounds every year. He also stated that our members made quite an impression on the folks back there. John Maas gave an informative talk on troubleshooting two cylinder starting and charging systems. He noted that a high percentage of problems can be traced to bad connections. John says he is more that willing to offer free advice, but if he has to get his hands dirty "It's gonna cost ya" Raffle followed meeting.

Meeting Adjourned, 11:45 am
 Ray Riggles, sec.

Meeting Minutes

Cascade 2 Cylinder Club Board of Director's Meeting November 12, 2009

Ray Riggles home

Meeting called to order at 8:20 by Paul Hieb Pres.

Minutes of previous meeting read and approved

Treasurer's Report: no report at this time.

Old Business: Van Osborne will replace Tom Jensen as key holder for the John Deere Building. We will meet soon to clean the gutters! Potluck, December 12, 2009, Bay View Community Center, Peel potatoes at 8:00 am short meeting around 11:00, Dinner at noon, raffle and silent auction to follow. We could still use a couple of nice items for the silent auction. We are in the early stages of planning for the EXPO. Gathering of the Green, March 17-20, 2010, contact Alerd Johnson

New Business: none.

Adjourned, 10:20 p.m. Ray Riggles, Sec.

Officers and directors present: Paul Hieb, president, Harold Eastbury Vice Pres., Ray Riggles, Sec., Alerd Johnson, Alan Brinson and Gary Friend, Directors

(Continued from page 1, JD Horse implements)

JD #2 High Lift mower Restored by Alerd Johnson

Main frame of mower came from Eastern Washington and had minimal rust. I traded a JD #1 high lift mower for a # 2 mower from club members Chuck and Flo Sayre, Pasco, WA. Chuck now has a complete set of John Deere horse mowers at his estate outside of Pasco. I also got some parts from club member Stan Coffman, Sedro Woolley. It took the winter of 2009 to disassemble, sandblast, unstuck shafts from bearings and paint the mower. Much more work than I expected but worth it. Parts book and operators books were easily accessible from Deere. I suspect the mower is from the early 1930's and like most horse mowers were converted from horse to a shorter tongue for tractors. One spectator at the 2009 Lynden show noted that he had mowed many acres with the mower and if a tractor was used instead of horses, one needed to keep the speed low to prevent heating up and destroying the bearings. Club member Clyde Caldwell, Mount Vernon submitted that he had lost the tip of his finger with a JD horse mower. He was trying to clear a plugged sickle with his finger when the horses relaxed causing the sickle to move slicing his finger.

If any members has additional information or stories concerning horse drawn implements we would appreciate the input! *ajohnson*

Green & Yellow Want Ads

Please note that want ads will be run one time unless renewed. Ads need to be limited to five lines and will feature John Deere tractors. Other non tractor antiques ok if brief.

For Sale John Deere 3 pt., 3 bottom plow, gauge lever, show room condition, \$375, financing available. Jim Galen, 360-398-2322

For Sale John Deere precision model tractors collection, 25 tractors. Financing available, Jim Galen, 360-398-2322

For Sale Rear steel wheels off 1929 John Deere D , \$750; 12 X 38 tires on pressed rims off John Deere 1946 A, \$250; Paul Hettervig 360-366-3346

For Sale John Deere 420S, parade ready. \$4200 firm, Jane 360-724-3052

For Sale ; 1-9x38 rear rim \$50; chains for J.D. pto pump, \$7.00; tractor tie down brackets, \$18.00 per set, Norm teSelle 360-354-3036

For Sale Sand blast sand, Paul Hieb, 360-856-6210

For Sale 2 used 18.4 X 34 tires, make offer, Alerd Johnson, 360-293-7953

For Sale 1 1/2 HP E Show Room, make offer, Jim Galen, 360-398-2322

For Sale John Deere 50 ,Harold Eastbury, 360-435-4873

For Sale Used Tires 1- 18.4.x 34, \$50; 2 - 750 x 16 \$20 Paul Hieb, 360-856-6210

For Sale New Down Muffler fits 40-420-430, Paul Hieb, 360-856-6210

Wanted 900 x 40 Rear Tractor Tires, Paul Hieb, 360-856-6210

Wanted John Deere M, running, Glen, 604-779-7854

Wanted John Deere 45 W loader, Brian, 360-332-1696

Wanted Tires, 12.4 X 24 or 11.2 X 24 for Bob Burt's 1935 JD BO, 360-468-2668

Wanted rubber tire wheel for #44 John Deere plow, Alerd Johnson 360-293-7953

Wanted Your email address so we can get you a quick notice of meetings, events and plow days. Send to webmaster@c2cc.org

Wanted Articles or ideas for articles for CTCC newsletter, Alerd Johnson, 360.293.7953, editor@c2cc.org

Wanted Members to mail or email club related pictures/video to webmaster@c2cc.org

Tools Explained

Part 1

Contributed by Tom Jensen

Drill Press: A tall upright machine useful for suddenly snatching flat metal bar stock out of your hands so that it smacks you in the chest and flings your beer across the room, denting the freshly-painted project which you had carefully set in the corner where nothing could get to it.

Wire Wheel: Cleans paint off bolts and then throws them somewhere under the workbench at the speed of light. Also removes fingerprints and hard earned calluses from fingers in about the time it takes you to say, "Oh shoot".

Electric Hand Drill: Normally used for spinning pop rivets in their holes until you die of old age.

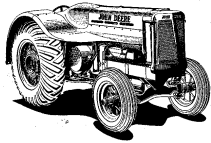

Skill Saw: A portable cutting tool used to make studs too short.

Pliers: Used to round off bolt heads. Sometimes used in the creation of blood-blisters.

Belt Sander: An electric sanding tool commonly used to convert minor touch-up jobs into major refinishing jobs.

Hacksaw: One of a family of cutting tools build on the Ouija board principle. It transforms human energy into a crooked, unpredictable motion, and the more you attempt to influence it course, the more dismal your future becomes. *Continued in next issue*
